**Suggestions:** Don't "overplan." Most kids just want to build! ☺

- Block sweettart candies are available at many candy stores (malls). LEGO® mini-figures make great cake decorations, too.
- **Have kids place loose bricks onto sheet, then pick up corners for easy cleanup. Save your back. And you have an excited army at your disposal...**
- No grass. No decks. No food. No drinks. No tables. Floors are the best!
- Warning: when kids see the brix, they will head straight over so plan accordingly. ☺
